

# Hard Light Love

Music and Lyrics by Scott Agster

## INTRO

## VERSE

She's standing there all a-shimmering.  
Her eyes look through my soul. aaa.  
How can she be a holo?  
What life with her will follow?  
*Is she free, to be loved by me?*  
Light me up.  
*She's programmed by me, but all I can see,*  
*Is my beautiful hard light love.*

## PRECHORUS (INSTRUMENTAL)

## CHORUS

*My girl's made up of sunshine and quantum fields.*  
*Her soul is a program, that's made of me.*  
*Is she just a reflection?*  
*Or can she decide to love me on her own?*  
*Is she my hard light lover?*

## HORN SOLO & BASS SOLO

## CHORUS

*My girl's made up of sunshine and quantum fields.*  
*Her soul is a program, that's made of me.*  
*Is she just a reflection?*  
*Or can she decide to love me on her own?*  
*Is she my hard light lover?*
